FULL STACK DEVELOPER -leveraging +2 year of experience

Proficient in Full-Stack Development, particularly with the MERN stack (MongoDB, Express.js, React.js, Node.js), Django, and Python. Adept at designing, developing, and deploying innovative web applications with a focus on seamless user experiences, robust security measures, and leveraging cloud platforms like Amazon Web Services (AWS) and Microsoft Azure.

WORK EXPERIENCE:

Full Stack Developer

Wilspun Tech

Aug.2023 – Present

- Collaborated in the development of web applications using Django and Next.js, with PostgreSQL as the database.
- Created a Single Page Application (SPA) with React.js and Next.js, enabling data binding to specific views and synchronization with the server.
- Developing Restful APIs for seamless communication between the server and client-side applications.
- Developed Restful APIs and GraphQL APIs for seamless communication between server-side and client-side applications.
- Made Restful API calls and designed/documented REST APIs for efficient collection and retrieval of substantial data.
- Implementing authentication and authorization mechanisms for user access control.
- Designing and implementing responsive user interfaces with React.js, ensuring seamless user experiences across various devices.
- Utilized Docker for containerization to ensure consistent development and deployment environments.

Jr. Full Stack Developer

Digital Solutions

Mar.2022 – Jul.2023

- Proficient in developing end-to-end web applications using the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Building scalable server-side applications using Node.js and Express.js, middleware integration, and database interactions.
- Applied Bootstrap responsive techniques for building interfaces compatible with multiple screen resolutions.
- Made Restful API calls and designed/documented REST APIs for efficient collection and retrieval of substantial data.
- Designed and maintained MongoDB databases for efficient data storage and retrieval.
- Implementing user authentication and authorization mechanisms using technologies like JWT (JSON Web Tokens) to ensure data security.

Front End Intern Developer

QuickSoft

Jul.2021– Dec.2021

- Writing clean, maintainable, and efficient code using HTML, CSS, and JavaScript/Typescript.
- Ensuring that the website or application works well across various devices and screen sizes is crucial.
- Working closely with designers, back-end developers, and other stakeholders to understand project requirements and translate them into functional front-end code.
- PSD to HTML / XD to HTML (Pixel Perfect) Conversion with the help of CSS3, also use Bootstrap 4 and Media Queries to make the website responsive.

TECHNICAL SKILLS:

FRONTEND: JavaScript/Typescript, ReactJS/NextJS, Redux, HTML5, CSS, Bootstrap, Tailwind

BACKEND : NodeJS, Express, Python, FastAPI (poetry with type hinting), Django

VERSION CONTROL: Git, GitHub

DATABASE: MongoDB, Mongoose, PostgreSQL, Firebase

CLOUDS : AWS, Azure, Digital Ocean

ACADEMIC CREDENTIALS:

Bachelor of Science in Computer Engineering | GCU Faisalabad 2022

Cloud Native and Mobile Web Computing (CNC) | PIAIC (2021-22)

Certified Cloud Applied Generative AI Engineer (WMD) | Aug 2022 – Conti.

PERSONAL DOSSIER

Date of Birth: 5 Dec 2001 || **Languages Known:** Urdu and English || **Address:** Jinnah Town, Jail Road, Lahore
